

Ready to accelerate sustainability for all?

SUSTAINABILITY CONSULTING LEADERSHIP PROGRAM

Life Is On

Schneider
Electric

Our Sustainability Business team is leading the charge in advising global companies in developing their bold commitments to curb climate change.

Join this new **GRADUATE ROTATIONAL PROGRAM** of 2 years and be at the core of this global effort for our planet and generations to come. You will become a permanent employee who will rotate in different roles and gain valuable experience in the sustainability consulting space across 3 main business areas:

OPERATIONS

Energy Analyst

The position holder will support the management of RFP processes, analyze contract prices and terms, and negotiate with Spanish, Portuguese, and/or Italian energy suppliers.

Renewable Energy & Carbon Advisory

This position holder will focus on providing client services and solutions for renewable energy solutions, as well as other evolving energy management opportunities, with a great influence on financial and environmental impact reductions.

Sustainability Analyst

A Sustainability Analyst supports clients in meeting their mandatory and voluntary compliance obligations and targets, is an effective communicator, and represents the company in front of clients and other stakeholders.

BUSINESS DEVELOPMENT

Client Development Analyst

A Client Development Analyst engages with new clients and builds partnerships, supports the sales activities, and interacts with business decision-makers at all levels to identify needs and requirements as well as market opportunities.

CLIENT / PROJECT MANAGEMENT

Client Associate

The position holder will be part of a high-performance team delivering energy management services to national and international clients
