Seminar Erasmus+ with

NATIONAL INSTRUMENTS  
**LabVIEW**

## LabVIEW Programming – an Introduction with Hands-on exercises

Laboratory Virtual Instrument Engineering Workbench (LabVIEW) is a system-design platform and development environment for a visual programming language from National Instruments.

Program:

### Friday, 10<sup>th</sup> of May 2019:

- 14h-15h: Introduction. Aula Schneider, 2<sup>nd</sup> floor Building H, ETSEIB
- 15h-18h: Practical sessions Aula Schneider, 2<sup>nd</sup> floor Building H, ETSEIB
- 18h-20h: Lab discussions (optional), Electrical Engineering premises.

This practical seminar is aimed to students and researchers that want to start with this tool.

The seminar is held by:

[FH-Prof. DI\(FH\) Christian Madritsch](#)

Carinthia University of Applied Sciences; Villach, Austria; Professor of Computer Science and Real-Time Systems. Research focus on applied informatics in image and signal processing, distributed dependable real-time systems, and automotive bus systems. Teaching focus on computer science, embedded software, DSP applications, bus systems, and real-time systems.
